In addition to the above-mentioned facilities, there are also two garages, a tavern, an outdoor kitchen and several smaller adjoining rooms that can be connected and used for various purposes.

Another of the advantages is that behind all the listed buildings there is a construction plot of 1000 m<sup>2</sup>, which has a separate access road, and enables separate further use of the same whether for further construction or for accompanying contents of the listed properties. External electricity and water connections are located on the land itself, as well as a large septic tank that does not require frequent emptying. The orientation of the house is ideal, southwest. As you can see, the real estate needs a complete renovation, which gives the future owner or owners the opportunity to adapt and arrange the building as desired.
