

MODERN TWO-BEDROOM APARTMENT IN THE HEART OF A SOUGHT-AFTER LOCATION - READY TO LIVE IN

 Pula

 **181,000 €**
3,121 €/m²

In the very south of Istria lies Pula, a city that perfectly combines the Mediterranean lifestyle, rich history and all the amenities of a modern urban environment. The sea, beach, promenades, cultural facilities and developed infrastructure make Pula one of the most desirable cities to live in, but also a safe investment for long-term or tourist rental. It is in such an environment that this functional and comfortable apartment on the first floor is offered, ideal for family life, couples or as an investment without additional investment.

Apartment S2 Z2 with a total area of 58.58 m² is located on the first floor of a residential building and stands out with its excellent layout and its own outdoor area. It consists of a spacious living room connected to the dining room, a kitchen functionally integrated into the living area, two bedrooms, a bathroom and a hallway with enough storage space. A special advantage is the covered terrace of 8.25 m², which provides additional outdoor space suitable for daily use and spending time outdoors with family and friends - a rarity that significantly increases the quality of living.

The apartment comes with a storage room and a parking space.

The apartment was built with an emphasis on quality and energy efficiency. The building will have a 10 cm thick thermal facade, while the floor coverings will be made of light-colored ceramics. Anthracite-colored PVC joinery with triple-layer glass and mosquito nets will be installed, and the living room will be equipped with large lift-and-slide glass walls that will ensure plenty of natural light and good connection between the indoor and outdoor spaces.

The heating system will be regulated via underfloor heating in the living room and bathrooms, while cooling will be provided by inverter air conditioners from the DAIKIN or Mitsubishi brands. A fireplace with a chimney is also planned, as an additional option for heating and creating a pleasant atmosphere in the space. The project is in an advanced stage of construction, and completion and occupancy are expected by the end of 2026.

The apartment is located in a location that provides quick and easy access to all important amenities: shops, schools, kindergartens, public transport, but also city roads. The beaches, city center and promenades are only a few minutes' drive away.

If you are looking for an apartment that offers more than classic living in a building - your own outdoor space, secure parking and a peaceful environment in one of the most attractive Istrian towns - this property represents an exceptional opportunity.
