

## BUILDING LAND IN AN EXTREMELY QUIET AND SOUGHT AFTER LOCATION

 Filipana, Marčana

 **207,500 €**  
55 €/m<sup>2</sup>

The municipality of Marčana is located in the southeast of Istria, just a ten-minute drive from Pula, and is known for its authentic Istrian villages, stone houses, dry stone walls and untouched nature. Nearby are Rakalj and Krnica with hidden coves and beautiful views of the sea, while the area is rich in cycling and hiking trails, as well as old churches and castles. It is precisely because of the combination of privacy, nature and proximity to the city of Marčana that in recent years has become an increasingly popular location for holiday villas and peaceful family life.

A plot of land with a total area of 3751m<sup>2</sup> is for sale, of which the area within the construction part is 1200m<sup>2</sup> and the remaining area of 2551m<sup>2</sup> is for agricultural purposes. The land is of regular shape, flat terrain and is lightly wooded. A neat road leads to the land, which is only a few meters away from the asphalt road. The part that is under construction is closer to the infrastructure in the entrance part of the plot. Infrastructure (electricity and water) is located at the very entrance to the plot. The position of the land provides the future owner with a wealth of possibilities for development and construction. Modern and well-maintained villas have already been built on both sides of the driveway, which immediately gives a clear picture of the future environment and further confirms the attractiveness of the location for building a family home or holiday home.

The land has thinner trees and lower vegetation, but the terrain is walkable and can be easily cleaned without major interventions. It is mostly fenced with traditional Istrian dry stone walls of varying heights, which gives it an additional indigenous character.

The location offers complete peace, without traffic and noise – ideal for building a house for residential or tourist purposes.
