The aforementioned apartment of 55 m^2 will be located on the first floor of the building and will consist of an entrance hall, a bright living

room connected to the kitchen and dining room and an exit to a loggia of 3.5 m^2, two comfortable bedrooms and a bathroom that will be equipped with electric radiators with a thermostat. The floors will be completely covered with high-quality ceramics, the living openings will be equipped with PVC double-glazed windows with 7 gas chambers, and the heating and cooling in the property will be regulated by an air conditioning unit. Underfloor heating will also be installed in the living room, kitchen and bathroom. The apartment will also have a 16 m^2 garage and a storage room on the ground floor of the building.
