

APARTMENT FOR SALE IN PULA ŠIJANA WITH PARKING

Šijana, Pula

139,900 €
1,999 €/m²

Pula, the largest city in Istria County, has been attracting property buyers for many years thanks to its unique combination of rich historical heritage, well-developed infrastructure, high quality of life and immediate proximity to the sea. As the economic, educational and administrative centre of southern Istria, Pula offers everything needed for comfortable year-round living. The apartment is located in the Šijana neighbourhood, one of the city's most practical residential areas, known for its excellent transport connections and close proximity to all amenities required for everyday life. Shops, a primary school, kindergarten, public

transport, sports facilities and various other services are all nearby, while the city centre, shopping centres and the main road network can be reached within just a few minutes by car.

The apartment is situated on the first floor of a residential building and offers a total living area of 70 m². Its functional layout comprises one bedroom, a living room, a kitchen, a bathroom and an entrance hall, providing comfortable living space for everyday life. The property is equipped with PVC windows and air conditioning and is being sold fully furnished.

A particular advantage of this property is the attic space, which requires renovation but offers excellent potential for expanding the living area. Once renovated, it can accommodate two additional bedrooms together with a spacious entrance area offering generous storage space, allowing the property to be adapted to the needs of a larger family or a modern lifestyle. The apartment can also be connected to the city's natural gas network.

An additional benefit is the fenced courtyard with a gated entrance, providing greater privacy and controlled access for residents. A private parking space is available within the courtyard, while residents also have access to shared facilities, including a storage room.

Thanks to its excellent location, functional layout, expansion potential and additional features such as private parking, storage space and a fenced courtyard, this property represents an outstanding opportunity both as a family home and as a long-term investment. By renovating the attic, the future owner can significantly increase the property's functionality and create a spacious home that will adapt to the family's needs for years to come.

The process of obtaining the occupancy permit is currently underway, and the application has already been duly submitted to the competent authority. We will be pleased to provide prospective buyers with detailed information regarding the current status of the procedure, as well as all available documentation.
